SUMMARY

An active 3rd-year student at Politeknik Enjinering Indorama majoring in Software Engineering, he is focused on systems analysis, software development, machine learning, and project management. He has experience as a System Analyst and Developer in various software projects. This background makes him detail-oriented with a solid understanding of software development life cycles and strong technical programming skills. And with that background, he's focusing on finding higher opportunities in tech areas through an internship program.

EDUCATION

Politeknik Enjinering Indorama

Purwakarta, West Java

Software Engineering Technology Major

2022 - Present

- **GPA** : 3.86 / 4.0
- **Relevant Coursework** : Software Analysis & Design, Object Oriented Programming, Software Project Management, Web Programming, Android Programming, and Data Mining.

Universitas Pasundan

Bandung, West Java

Informatics Engineering Major

2021 - 2022

- **GPA** : 3.95 / 4.0
- **Relevant Coursework** : Computational Thinking, Web Development, Probability and Statistics
- **Projects** : Simple E-Commerce (Web)

EXPERIENCE

Bangkit Academy led by Google, Goto & Traveloka

Indonesia (Online)

Machine Learning Cohort

Feb 2024 – July 2024

- Led a team as the project lead for the capstone project, overseeing the development of a food classification model that achieved 98% accuracy for the given dataset.
- Completed a comprehensive machine learning curriculum from basic to advanced using TensorFlow, accompanied by soft skills and English skills training.
- Designed and analyzed problems, and determined the Minimum Viable Product (MVP) for the project.
- Collaborated with team members to create a project focused on food detection for preventing stunting during pregnancy.
- Organized and led the project planning, resulting in a timeline that was 15% faster than initially projected.

Compunova

Purwakarta, West Java

Project Lead and Backend Developer

Mar 2023 – Present

- Led a team of 4 members in project development, creating timelines and principles to ensure projects are delivered on time and meet user requirements.
- Conducted user interviews to gather requirements, ensuring a clear understanding of project needs.
- Determine budgeting for projects, managing to complete around 7 application projects within the assigned budget.
- Design systems using UML standards for MVC application models, along with SRS following IEEE standards, and develop ERD designs for databases to ensure compatibility and efficiency.

- Developed backend functions for a web application, primarily using Laravel framework.

ORGANIZATIONAL EXPERIENCE

Software Engineering Student Association

Purwakarta, West Java

Staff of Research and Development

Dec 2023 – Present

- Designed and collaborated to create 3 flagship programs focusing on community research and development within the internal environment (Study Program).
- Initiated and designed a community program called ByteBreaks as a platform for sharing and asking questions among members on the Discord platform.
- Coordinated with 3 departments to create synergistic and integrated programs.
- Conducted and organized an MS Excel workshop for 40 high school and vocational students in collaboration with the study program.

English & Techno Camp PEI

Purwakarta, West Java

Field Coordinator

Aug 2023

- Composed the layout for events at PT. Indo-Rama Synthetics Tbk.
- Organized and guided 200 participants on-site to the event venue.

Journalist Student Activity Unit

Purwakarta, West Java

Staff of Human Resources and Development

July 2023 – Present

- Collaborated and developed a program in order to develop journalism knowledge for the general public.
- Enhanced members' expertise in journalistic aspects.

SKILLS, COURSES & LANGUAGES

Technical Skills: Python, Machine Learning (Tensorflow), UML, Database (SQL), Git, Object Oriented Programming, PHP, Laravel, Java, Android Programming (Kotlin), Javascript, Microsoft Office, Google Workspace.

Soft Skills : Problem-Solving, Critical Thinking, Analytical Thinking, Leadership, Communication, Team Collaboration, Project & Time Management, Adaptability.

Courses : Crash Course on Python (Google), Machine Learning Specialization (DeepLearning.AI, Coursera, Stanford CPD, UVM), DeepLearning.AI Tensorflow Developer (DeepLearning.AI), TensorFlow: Advanced Techniques (DeepLearning.AI), Mathematics for Machine Learning and Data Science Specialization (DeepLearning.AI), Belajar Data Analysis Dengan Python (Dicoding), Belajar Dasar Manajemen Proyek (Dicoding).

Languages: Bahasa Indonesia (Native/Mother Tongue), English (Intermediate).
